COMMENTS ON INFORMATION PACKAGE, OIL/WATER SEPARATOR SITES 674B AND 674C, FORMER MARINE CORPS AIR STATION, EL TORO

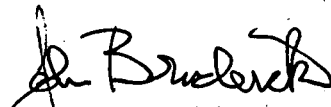

Dear Mr. Piszkin:

We have reviewed the above referenced document, dated April 1, 2005, which we received on April 8, 2005. We have the following comments:

Oil/Water Separator (OWS) Sites 674B and 674C are located on the southeastern edge of Bee Canyon Wash channel near the southern perimeter fence. The report presents the results of previous investigations conducted at the OWS sites and for suspected release areas that overlap the OWS sites. No significant release of petroleum hydrocarbons or volatile organic compounds has been discovered at the OWS 674B and 674C Sites. We concur with your recommendation of no further action for these sites. Our concurrence is with the provision that the information you provided is accurate and representative of site conditions.

For any questions, please call me at (951) 782-4494, or send email to jbroderick@waterboards.ca.gov.

Sincerely,

John Broderick
